

Childbirth Education Classes and Registration

The birth of your child is unlike any other event in your life. We believe that understanding pregnancy and the birthing process helps you assume your role as parents with greater ease, confidence and joy!

To help you gain knowledge, we offer a variety of programs to prepare you and your family for the arrival of your baby. Each class is taught by knowledgeable nurses and educators who are specially trained in the field of obstetrics. They will guide you through the various physical and emotional experiences that await you.

Register for birth classes at a location near you. Visit healthcare.ascension.org/events, or to speak with one of our registration associates, call **800-362-9900**.
